# INSPECTIONS

Inspecting a product before shipment is an effective way of preventing quality problems and supply chain disruptions further down the line. It helps to protect your brand and your company's reputation by minimizing defective merchandise, customer complaints and delayed shipments. It also ensures product safety, compliance with all contractual specifications, mandatory regulations and quality standards

Our Experts having length of industry experience and fully equipped and trained to perform any type of inspection which may include but not limited to the following:

**INITIAL PRODUCTION CHECK**

**DURING PRODUCTION CHECK/PRODUCTION FOLLOW-UOS**

**FINAL INSPECTION/PRE-SHIPMENT INSPECTION**

**CONTAINER LOADING CHECK**

CB Inspector use well defined SOP for inspection which are developed in line with International standards and best industry practices. During the course of inspection, CB expert inspector focus on the following point beside any specific instruction by our customer

Product specification as per Purchase order and/or customer guidelines

Product dimensions as per guidelines

Classification of defects , critical, major or minor as per customer criteria

Functionality

Color/shades

Packing of product

Carton Marking

Overall Appearance and presentation

All other point as instructed by customer
